

9 Volt Battery Energisers

ESSENTIALS

ESB 210

Highly effective 9/12/230V fence device for mobile use

- The cost-efficient 'beginner's' 9V battery energiser for mobile use in small pastures with little vegetation
- Ideal for smaller horses and cattle pastures, also suitable for small animals such as dogs and cats
- Weather-resistant – specially developed and tested for use in fields
- 12 volt operation possible (adapter cable 44641 recommended to connect a 12 volt wet battery)
- With 12 volt full discharge protection
- Low battery indicator

Included:

- 1 x fence and ground connection cable
- 1 x installation ground rod

To relieve the 9 volt battery during daylight hours: 377024

Full solar kit to replace a 9 volt battery: 377056GB

Recommended 9V battery: 90Ah (482101)

DRY BATTERY ALKALINE 9V

- 9V alkaline batteries produce a constant high voltage output throughout their entire lifetime. This means the fence device also emits a constant output during this time.

DRY BATTERY AIR OXYGEN 9V

- Standard dry type battery for application in electric fence equipment, not designed for high power
- Mercury free
- High capacity
- Non rechargeable
